- I authorize UEMS/EANM to publish on the website the name and the data of the Centre.
- I do not authorize UEMS/EANM to publish on the website the name and the data of the Centre.

Are you applying for accreditation in the whole field of Nuclear Medicine including PET and therapy or are you applying for accreditation in limited areas, if so which areas? (Certificate should specify those areas!!!)*

- yes no

Please specify those areas:

Are physics services (i.e. Medical Physicist) provided according to local regulation? *

- yes no

Please indicate of the total number of examinations procedures performed in the last year and detailed protocols of the five most frequently performed in vivo procedures examinations. The Committee will evaluate the application file and select at random five further procedures which are offered by the facility and request the detailed protocols for these examinations procedures in addition to the five most commonly performed. *

Please send the following 5 files to the UEMS/EBNM Office office@uems.eanm.org*

- a copy of the ISO certificate.
- The list of in vivo investigations performed in the department, in frequency descending order.
- The protocols or operational instruction sheets of the 5 most frequent investigations
- The name of at least one certified nuclear physician working full-time in the department and a copy of his/her Nuclear Medicine certification or degree (in case of part-time physicians only, a list of physicians whose cumulated workload is at least full-time equivalent is needed).
- Any other document the applicant would think useful. CANMD will then analyse these documents and randomly choose 5 other investigations from the list sent by the applicant. The applicant will then be asked to send us the corresponding 5 protocols or operational instruction sheets. For each of these 10 protocols a short comment mentioning the main source(s) from which the protocol is derived (eg SNM guidelines, national guidelines, books, articles, etc.) is required.
